

JT 10700 & LF 10700 Wrapping Films

Not magic, but it sure looks like it

Car wrapping has never been easier! 3D ultra-conformability, excellent printability and proper tack levels mean that Mactac JT 10700 wrapping films give you truly amazing application results.

This series of films is now a winning choice for many of your most demanding jobs. Ever-popular JT 10700 WG-BFG uses Mactac Bubble-free patented adhesive technology for quick and easy application. Speeding things up even more with JT 10700 WG-BFG, this film features a perfectly balanced initial tack adhesive for extreme repositionability and fast, stunning results on even the deepest corrugations. The new material also gives you an outstandingly smooth finish, for a stop-and-look gloss, paint-like effect. The ultimate wrapper experience!

Mactac LF 10700 matt and gloss overlaminates complete the picture, and UV adhesive technology suits UV-curable inks as well as Solvent, Eco-Solvent and Latex inks.

JT 10700 & LF 10700 Wrapping Films

Advantages

- Extreme repositionability of JT 10700 WG-BFG, incredibly fast application
- Ultra-smooth finish with JT 10700 WG-BFG
- Extreme conformability on 3D surfaces and corrugations
- Excellent printability on all main platforms
- Durable over time
- Mactac repositionable adhesives for different levels of soft initial tack - easy handling
- Fast and efficient bubble-free application
- High opacity, thanks to grey adhesive
- ICC profiles available for optimal printing.
- Fire rating EN 13501-1

Applications

JT and LF 10700 Series films are an excellent choice for long-term promotional applications on demanding 3D surfaces. Extreme conformability and reliable performance over time make these products especially suitable for partial or total wrapping of vehicles and corrugated surfaces.
